RIGHT TO KNOW

**A FIGHTING CHANCE FOR
HEALTH AND SAFETY**

- ON THE JOB
- IN THE COMMUNITY
- AT HOME

WHAT IS THE RIGHT-TO-KNOW?

The Right-To-know Legislation is based on the principle that all people have the right to know the full extent of the health risks they are exposed to on the job, in the community and at home.

WHAT ARE WE DOING?

We are planning to introduce RIGHT-TO-KNOW Legislation. We feel that the information of government and industry belong to the People.

WHO ARE WE?

We are the New Jersey Committee for Occupational Safety and Health and the Metro Newark Project. We are a broad based Alliance. We unite the interests of Workers, Environmentalist, Women, National and Ethnic Minorities, Seniors, the Unemployed, Students, Anti-Nuclear and Peace Groups.
